

Results for the Gil Clayton and Steve Stubblefield ATA Memorial on Saturday, Nov. 1st

Mother nature was not too cooperative, providing rain most of the night before and very heavy low overcast and threat of rain that morning. It was found to be enough to have flooded three trap houses, which had to be pumped out and dried, and dry targets brought in.

Participants still came to show their support, and both events had 31 entries. Thanks so much to all that made the extra effort due to the weather and conditions!
